Course Description

The Level 3 in Business Management is a foundation course which will introduce students to all the fundamental principles of academic practice through writing and skillsets for research and development which is aligned to Business management and its application within the Creative Industries.

The course covers practical writing, critical thinking and research skills, alongside inquiry- based learning which provide a framework and underpinning for enabling students to progress to advanced learning

While the course is primarily academic and theory based, creative thinking and visual as well as verbal presentation are practiced and fully integrated to provide vital transferable skills to progress to the undergraduate degree programme

Summary of distinctive features include:

- Units enabling students to learn to acquire and develop a wide range of cognitive and intellectual skills which will underpin the progression onto an undergraduate degree programme
- Students will be provided with academic writing skills to ensure success in foundation skills in business and management
- Communication skills: students on this course will learn to communicate visually, verbally and creatively.
- students are encouraged to develop their professional and entrepreneurial skills

The units are designed to enable students to build their academic practice incrementally throughout the programme. The programme allows student to focus heavily on development of the hard and soft skills needed in the foundation of business and management with particular focus on Academic writing, innovative thinking, Communication skills and research practice.

In semester one you will be introduced to academic development across two units. One for Critical thinking and research; which will underpin your entire programme through the rigour and integrity of academic practice and the latter in writing and communication where you get to choose your output of assessment task in written form. Alongside your two fundamental units you will be introduced to Business Management. Identifying with basic finance to HR and marketing teams all of which add value to management, you get to learn about the competitive global landscape and how businesses function.

By semester two students' exposure to business and academic practice will be thoroughly explored and your foundation units will be developing professional skills involving your entrepreneurial mindset and working on an inquiry based learning project, which will focus resolution for a business management foundation project for final execution.

This course will enable students to grasp the academic integrity and practice to gain a solid foundation in business and management applied to the Creative Industries and to not only explore functions of business enterprise but to develop an understanding of how organisations evolve for future sustainable growth and how you can be part of that. This is just the start.

If students want to be introduced into the world of the Business Management with particular focus on contemporary operating models in the Creative Industry context, then this is the course. Business Management at Ravensbourne will enable students to innovate and critically appraise what is required to efficiently manage a business. The BSc (Hons) in Business and Management delivers collaborative core business practice alongside refining skills in management, strategy and research which will support and enhance the students' journey into the ever-evolving business landscape.

The course covers practical business and theoretical models which provide a framework and underpinning to enable students to set up in business as an entrepreneur or work in a global conglomerate. Integral to the course is understanding how businesses operate from finance, operations, strategy, innovation and digital practice. While the course is primarily academic and theory based, creative thinking, visual as well as verbal presentation are practiced and fully integrated to provide vital transferable skills.

Summary of distinctive features include:

- Industry focused – Live project briefs and opportunity for placement within the Creative Industries
- Business Lecture series to support your practice
- Modules enabling students to develop a wide range of cognitive and intellectual skills together with competencies specific to business and enterprise
- Creation of Business Plans to support business start ups
- Collaborative working alongside the BA Hons Fashion Management and Digital Marketing course to enable students to acquire key business skills and support co-creative working
- Students will be provided with the skills to ensure creative industries are sustainable, have durable infrastructure processes that support and sustain growth and innovation in Business
- Communication skills: Graduates of this course will learn to communicate visually, verbally and creatively through digital creative media
- Industry Linked Assessment Methods: Assessment methods are designed to prepare students for industry. Pitches and presentations feature to prepare students for the challenges of industry.
- Business Planning -students are encouraged to bring their own unique entrepreneurial ideas to the course and create Business proposals for development

The modules are designed to enable students to build their business skills and acumen incrementally and provide a diagnostic opportunity for their future career choices. Research, creative and innovative skills, business and management knowledge will be supported by the ability to evaluate data, understand financial statements, process information and produce meaningful solutions to your creative briefs. A wide range of Industry links and field trips to help students gain a better understanding of key aspects of Business operations which may also include an international study visit incorporated into stage 2 of the course. Issues of Sustainability, Social Responsibility and Responsible Business practice will be embedded in the whole course and specifically addressed in the dedicated module in year 2.

By Year 3 there is a progressive move from less staff-directed to more autonomous learning, this is integral to teaching and learning practices and encourages students to develop abilities

of independent learning as thoroughly as possible prior to graduation and their future career path.

In Level 4 (year 1) Students will be introduced to Operations and Management as well as Business Finance to enable them to gain deeper understanding of the principles of Business practice at an introductory level. Further to this, learning how strategy is incorporated at management level to support the business and functional operations of an organisation.

In level 5 (year 2) students will be able to demonstrate an ability to identify, critically evaluate and apply theories of Global Business practice, their creativity in a practical context through Digital Business as well as completing an industry placement or professional project.

In final year Level 6 (Year 3) students will build on previous learning in level 4 and 5 and utilise their business management acumen to identify solutions to both real world and defined business events and problems. The learning will be supported through research and strategy to accomplish Business Objectives alongside responsible business practice which is paramount to industry practice today. The accumulation of learning with a rich understanding of the business research will enable students to produce a final business and management implementation project.

Students will be able to acquire the hard and soft skills employers' value by studying in a co-creative collaborative environment by having shared modules with cohorts from other courses. This collaborative approach will enable students to explore functions of business enterprise, and develop an understanding of how organisations evolve, and further support building a network for future sustainable growth.

Course Aims

- To enable students to develop an academic framework and prepare them with necessary writing, research and communication skills
- Prepare students for further academic study by developing their academic integrity and rigour
- Enable students to develop and harness their verbal, visual and written communication skills
- To provide the opportunity for students to apply professional entrepreneurial skills to real world problems
- Provide students with foundation knowledge and understanding of the frameworks which underpin business and management
- To enable students to develop a comprehensive and contemporary understanding of Business and Management pertinent to the creative Industry
- To provide students with the opportunities to network and co create alongside their peers to advance critical and strategic skills in the professional landscape.
- To provide students with a robust understanding of the transferable hard and soft skills by understanding operations and management of business to support global practice

- To enable students to develop careers goals and aspirations to enter employment or pursue further interest in postgraduate study
- To enable students to harness and develop digital, verbal and visual communication skills
- To provide the opportunity for the students to identify and apply creative, entrepreneurial and innovative thinking and problem solving within a professional context.

Course Learning Outcomes

<p>The course provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.</p> <p>On completion of the BSc (Hons) Business Management students will be able to:</p>	
Explore	<p>Evidence and contextualise capacity for utilising and synthesising Business Management knowledge of the economy, business management and business environments and critical reflection, supporting deeper understanding of the subject. (CLO1)</p>
Create	<p>Critically engage with the development of ideas, materials, tests and outcomes that may inform practical and theoretical development in physical, written and oral forms aligned to Business Management (CLO2)</p>
Influence	<p>Evidence a methodical working approach and ethos that encompasses innovation, creativity and enterprise and critically identifies consideration of social, ethical, political, legal and environmentally responsible working methods and how this aligns and supports personal development and professional working practices in relation to BSc Business Management (CLO3)</p>
Integrate	<p>Evidence a critical ability to successfully synthesise collaboration, industry interactions & practices and professional working models in order to facilitate self-efficacy, personal agency and professional development in relation to Business Management (CLO4)</p>

<p>Where a student does not complete the full course, but exits with an Ordinary Degree, they will have had the opportunity to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.</p> <p>On completion of the BSc Business Management students will be able to:</p>	
Explore	<p>Evidence and contextualise capacity for utilising and synthesising Business Management knowledge of the economy, business management and business environments and critical reflection, supporting deeper understanding of the subject. (CLO1)</p>
Create	<p>Evidence ability to consider ideas, materials, tests and outcomes that may inform practical and theoretical development in physical, written and oral forms aligned to Business Management.</p>

COURSE SPECIFICATION

	Evidence ability to synthesise idea development, experimentation, and technical ability supporting resolved outcomes regarding communication and presentation for Business Management. (CLO2)
Influence	Evidence a coherent working approach and ethos that encompasses innovation, creativity and enterprise and critically identifies consideration of social, ethical, political, legal and environmentally responsible working methods and how this aligns and supports personal development and professional working practices in relation to Business Management. (CLO3)
Integrate	Evidence ability to effectively synthesise collaboration, industry interactions & practices and professional working models in order to facilitate self-efficacy, personal agency and professional development in relation to Business Management. (CLO4)

Where a student does not complete the full course, but exits with a Diploma in Higher Education, they will have had the opportunity to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.

On completion of the **Diploma of Higher Education in Business Management** students will be able to:

Explore	Evidence evolving ability to utilise research and critical reflection to support developing understanding of subject knowledge and ability to problem solve in relation to Business Management. Evidence evolving ability to utilise Business Management knowledge of the economy, business environments and critical reflection, supporting deeper understanding of the subject. (CLO1)
Create	Evidence capacity to combine ideas, materials, tests and outcomes into solutions that inform and guide practical and theoretical development in physical, written and oral forms aligned to Business Management. Exhibit developed technical competencies, supporting ideation, communication and presentation in relation to Business Management. (CLO2)
Influence	Evidence developing working processes that identify consideration and interpretation of social, ethically and environmentally responsible working methods and how this guides personal professional practice in relation to Business Management. Evidence developing working processes that identify consideration and interpretation of innovation, creativity and enterprise and social, ethical, political, legal and environmentally responsible working methods and how this aligns and supports personal development and professional working practices in relation to Business Management. (CLO3).
Integrate	Evidence evolving ability to engage with collaborative working to support academic development, industry interactions & practices to enhance and progress self-efficacy

COURSE SPECIFICATION

	and professional development in relation to Business Management. (CLO4).
--	--

Where a student does not complete the full course, but exits with a Certificate of Higher Education, they will have had the opportunity to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.

On completion of the **Certificate of Higher Education in Business Management** students will be able to:

Explore	Demonstrate capacity for engaging with research developing Business Management specific knowledge and emerging ability to problem solve. Demonstrate evolving ability to utilise Business Management knowledge of the economy, business environments and reflection, supporting deeper understanding of the subject. (CLO1).
Create	Demonstrate capacity to consider ideas, materials, tests and outcomes that may inform practical and theoretical development in physical, written and oral forms in relation to Business Management. Exhibit emerging technical competencies, supporting ideation, communication and presentation in relation to Business Management. (CLO2).
Influence	Demonstrate emerging working approach/attitude that identifies consideration of social, ethically and environmentally responsible working methods and how this guides personal professional practice in relation to Business Management. Demonstrate an emerging working process that identifies consideration and interpretation of innovation, creativity and enterprise, and social, ethical, political, legal and environmentally responsible working methods and how this aligns and supports personal development and professional working practices in relation to Business Management. CLO3).
Integrate	Demonstrate emerging capacity to engage with collaboration, teamwork, industry interactions, and professional working practices to support self-efficacy and professional development in relation to Business Management. (CLO4).

Where a student does not complete the full course, but exits with a Foundation Certificate of Higher Education, they will have had the opportunity to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.

On completion of the **Foundation Certificate (Business Management)**, students will be able to:

Explore	Demonstrate a basic capacity for engaging with research and starting to develop skills in critical thinking, developing introductory business and marketing knowledge, and an emerging ability to problem solve. (CLO1)
Create	Demonstrate a basic capacity to consider ideas, materials, tests and outcomes that may inform practical and theoretical development in physical, written and oral forms

COURSE SPECIFICATION

	<p>in relation to business and marketing.</p> <p>Exhibit some technical competencies, supporting ideation, communication and presentation in relation to business and marketing.</p> <p>(CLO2)</p>
Influence	<p>Demonstrate emerging working approach/attitude that identifies some consideration of basic social, ethically and environmentally responsible working methods and how this guides personal professional practice in relation to business and marketing.</p> <p>Demonstrate an emerging working process that identifies consideration and interpretation of some entry-level professional skills and how this aligns and supports personal development and working practices in relation to business and marketing.</p> <p>(CLO3)</p>
Integrate	<p>Demonstrate emerging capacity to start to engage with collaboration, teamwork, industry interactions, and professional working practices to support self-efficacy and professional development in relation to business and marketing.</p> <p>(CLO4)</p>

Learning, Teaching and Assessment

Learning and Teaching methods	Assessment Strategy
<p>Level 3: Lectures Group Tutorials Formative assessments/ Critiques Case Studies Seminars Workshops Film/video content Flipped classroom activities Simulated lab activities Self-directed study Group work Academic writing workshops Research workshops Library inductions</p> <p>Level 4: At Level 4 Learning & teaching will be delivered through a combination of workshops, lectures, seminars and group exercises, self-directed study, as well as individual or group tutorials.</p> <ul style="list-style-type: none"> • Lecture • Seminar • Tutorial • Guest Lecture • Technical Demonstration • Practical Classes and Workshops • Supervised Time in Studio • Fieldwork • External Visits • Independent Study • Directed Study • Hybrid Approach <p>Level 4 will also introduce students to the Professional Life Practice modules that are</p>	<p>Assessment Methods & Requirements will include: written, oral and visual components including but not exclusively:</p> <ul style="list-style-type: none"> • Marketing reports • Business Plans • Business Report • Debate • Research • Essay • Critical Rationale • Basic Financial bank statement analysis • Pitch/presentation • Case Studies • Brand Management Report • Student learning Agreements • Oral Assessment – content and form • Presentation • Portfolio • Digital Workbook • Practical Assignment • Classroom Test • Reflective Written Document • Industry Focussed Report • Project Pre-Production Treatment • Critique • Personal Progress Review (PPR) <p>Formative Assessment is used in all modules of the programme to assess students progress relating to module briefs and an opportunity to offer feedback, feedforward and a diagnostic response. This is typically within a group or individual review held midway throughout each module though for latter modules in level six there are more formative</p>

embedded in each undergraduate learning level. These modules specifically support collaborative experimental practice, entrepreneurship, and enterprise, helping to catalyse, develop and showcase interdisciplinary working methods interaction and innovation.

The Modules will also facilitate opportunities to integrate with industry partners in order to establish professional currency at the start of the undergraduate journey, and to drive enterprise and employability through the degree experience.

The Professional Life Practice Modules integrate the emerging subject knowledge of each student with working methods from a range of disciplines to create a multidisciplinary synthesis of practice, skills and learning. Students will develop social, cultural, emotional, and cognitive intelligence through projects that facilitate community and industry connections aligned to the Ravensbourne Core Competencies.

Level 5:

Skills acquired at Level 5 are developed further through a combination of workshops, lectures, seminars, group exercises, self-directed study, as well as individual or group tutorials.

- Lecture
- Seminar
- Tutorial
- Guest Lectures
- Practical Classes and Workshops
- Supervised Time in Studio
- Independent study
- Directed Study
- Placement Opportunities
- Study Abroad Opportunities
- Hybrid Approach

assessment points.

Summative Assessment is held in the latter stages of each module and is the definitive assessment point where each assessment requirement is assessed. All Assessment involves moderation and verification. Written or aural feedback and clear feedforward will be provided shortly after assessment and there are opportunities for tutorials if you need further classification before the start of the next module.

Assessment will be aligned to the Ravensbourne Core Competencies.

These Modules will inform Level 6 Modules around portfolio creation and Final Major Project and enable students to make career choices around their industry discipline.

In addition, students will test their developing disciplinary knowledge in collaborative scenarios with the opportunity to take part in the Professional Life Practice Modules, and Work Based Learning Modules, offering collaborative and industry aligned opportunities both within Ravensbourne and in external contexts.

Visiting speakers and industry specialists will be invited to deliver lectures or practical workshops, bringing their own specialism and examples of industry work into the sessions.

The Professional Life Practice Modules at Level 5 supports practical, theoretical and industry focused engagement facilitating expertise, experience and interactions with professional aspects of the games and games programming disciplines.

All Level 5 students will have the opportunity to undertake a Work Based Learning modules at the end of Semester 2. The Work Based Learning module will offer students the ability to engage with industry-led experience supporting industry interactions, entrepreneurship and employability skills. The placements will be supported by the careers team at Ravensbourne.

Level 6

Skills acquired at Level 4 and 5 will be developed and perfected at Level 6 through lectures, seminars, workshops, self-directed study and individual tutorials.

<ul style="list-style-type: none"> • Lecture • Seminar • Tutorial • Guest Lecture • Independent study • Directed Study • Technical Masterclass • Industrial Live Project • Networking Events • Portfolio Review • Hybrid Approach • Online Study <p>Students are expected to take on professional attitudes to time and project management.</p> <p>Visiting lecturers may be invited to deliver lectures and/or practical sessions related to their area of work and students will develop an outward facing portfolio to aid graduate progression.</p> <p>Written work will focus upon critical analysis and reflection of project-based work, with a view to encouraging ongoing development. Within the sphere of theoretical study, students will expand their ability to write reflexively and critically about their discipline and competently be able to contextualise their personal practice.</p> <p>Students will be expected to interface directly with industry through mentoring, competition, and research.</p>	
--	--

Work-Based Learning

Students will be supported in undertaking work-based learning in their second year, utilising contacts and links built between the course team and industry. Possible organizations include: Business functions within start-ups, internet companies, social media organizations, Hedge funds, Equity Funds, sustainable Energy Industry, Fashion Industry, Luxury Industry, Shipping, Logistics and many more.

Course Regulations

Entry Requirements

One A-level (32-64 Tariff points)

and

a GCSE or equivalent in Mathematics and English Language at grade 4/C or higher for all applicants at the point of enrolment.

Please refer to the institutional regulations on the expected minimum entry requirements (found under Section 5 of the General Academic Regulations found on the website [here](#)), and the course page on the [Ravensbourne University website](#) for course specific entry requirements.

Accreditation of Prior Learning (if applicable)

Applications are welcomed from those who may not possess formal entry qualifications, mature students, those with work experience or with qualifications other than those listed above. Such applicants should demonstrate sufficient aptitude and potential to complete the course successfully. Applicants will be assessed at interview in accordance with Ravensbourne’s Accreditation of Prior Learning Policy and Procedure and Student Transfer Plan.

Conditions for Progression

Students will be deemed to have passed a module if they achieve a 40% for undergraduate students; or a 50% for postgraduate students.

A student who has passed all assessments to date but has not yet reached the end of a level (or stage) will be permitted to proceed into the following term by the Interim Assessment Board.

Reassessment of Failed Elements

Failure in any component will result in a Fail grade for the component.

Non-submission in any component will result in a non-submission for the component.

Students must then successfully retrieve the failed or non-submitted component by resubmission of assessment in order to pass the module.

Where a student does successfully retrieve a component failure, the grade for the component will be capped at 40% (undergraduate) or 50% (postgraduate) (except where Extenuating Circumstances have been approved). The overall grade for the module will be calculated using all achieved grades where there are 2 or more components.

Conditions for the Granting of Awards

COURSE SPECIFICATION

A student who completes an approved course of study, shall be awarded BSc (Hons) Business Management

Those students who exit the Course without completing it may be entitled to exit with an award of either a:

1. Foundation Certificate (Business Management), provided they complete an approved course of modules and the learning outcomes for such award as set out in the Course Specification.
2. Certificate of Higher Education in Business Management, provided they complete an approved course of modules and the learning outcomes for such award as set out in the Course Specification.
3. Diploma of Higher Education in Business Management, provided they complete an approved course of modules and the learning outcomes for such award as set out in the Course Specification.
4. BSc Business Management (ordinary degree), provided they complete an approved course of modules and the learning outcomes for such award as set out in the Course Specification.

Any derogation(s) from the Regulations required?
